

A Land of Two Halves: Looking for a Lift in Both New Zealands

After ten years in New Zealand, Joe Bennett asked himself what the hell he was doing there. Other than his dogs, what was it about these two small islands on the edge of the world that had kept him - an otherwise restless traveler - for really much longer than they seemed to deserve? It wasn't the sheep, the hobbits had left, and they could no longer claim the best rugby team in the world - what else was there? Bennett thought he'd better pack his bag and find out. Hitching around both the intriguingly named North and South Islands, with an eye for oddity and a taste for beer, Bennett began to remind himself of the reasons New Zealand is quietly seducing the rest of the world.
