

A new survey of the West-Indias, or, The English American, his travail by sea and land containing a journal of three thousand and three hundred miles within the main land of America (1655)

## A new survey of the West-Indias, or, The English American, his travail by sea and land containing a journal of three thousand and three hundred miles within the main land of America (1655)

EARLY HISTORY OF TRAVEL & GEOGRAPHY. Imagine holding history in your hands. Now you can. Digitally preserved and previously accessible only through libraries as Early English Books Online, this rare material is now available in single print editions. Thousands of books written between 1475 and 1700 can be delivered to your doorstep in individual volumes of high quality historical reproductions. Offering a fascinating view into the perception of the world during the sixteenth and seventeenth centuries, this collection includes accounts of Columbus's discovery of the Americas and encompasses most of the Age of Discovery, during which Europeans and their descendants intensively explored and mapped the world. This series is a wealth of information from some of the most groundbreaking explorers.
