

Her Majestys Tower, Vol. 1 of 2 (Classic Reprint)

Excerpt from Her Majestys Tower, Vol. 1 of 2The author of this work on what we have so long thought of as Her Majestys Tower deserves well of the present generation. His memory should be honoured by all to whom historical truth is sacred. The actual scene of a great event impresses its meaning and its relative importance more powerfully on the mind than any amount of eloquence or poetry or topographical description. It is largely due to the exertions made more than thirty years ago by Hepworth Dixon that a visit to the Tower is within the reach of every one in London; and, moreover, that an intelligible recollection may be carried away.About the PublisherForgotten Books publishes hundreds of thousands of rare and classic books.
