

Confessions of a Lie Detector: years of theft, sex, and murder

Confessions of a Lie Detector chronicles over thirty years of working with people accused of crimes. Gordon Barland, Ph.D., retired Chief of the Research Division, Department of Defense Polygraph Institute, called this book a must read. Barland said of the author, He offers insights into why people lie, later confess, and yet sometimes recant. He characterized Wygant's writing as reflecting, ...the heart of a poet and soul of a philosopher. What happens to us when accused, rightly or wrongly? How do we defend ourselves? Here is the human side of the news, the deeper story that the media never reaches.
