

Conservatives Versus Liberals - A Collective Divided

For all the bombast and rhetoric demonizing one side by the other, here is a little book of humor which explores the actual differences between so called conservatives and liberals. It is an apolitical jaunt through the characteristics that supposedly divide our citizenry. Composed of simple two line observations (Conservatives; Liberals), this sometimes thought provoking collection is an exercise in national humility. Stop and chuckle, and realize just how foolish this whole divisiveness is.
