

Excerpt from Court Life Below Stairs: Or London Under the Last Georges; 1760 1830 The popularity of the first volumes of this work - practically proved by a demand which sent the book into a second edition in three weeks, and out of print in as many months - has induced me to continue the pictures of Court Life under the Georges. The reigns of George III. and George IV. are no less interesting and instructive, to those who study the social history and manners of courts, than those of George I. and George II.; and, it is mournful to assert, are far more scandalous. George III., it is true, was from the day of his marriage a moral man; but the grossly voluptuous and glaringly corrupt example of his immediate predecessors yet affected the conduct of his courtiers and tainted them grievously. Concerning George IV. there can be no second opinion. As in the former volumes, so in these, I have omitted as much as possible all reference to politics, save where they are responsible for the actions of Kings, Princes, and Courtiers. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
