

The Lady Gangster: A Sailors Memoir

This remarkable story began with a broken car radio and a father-and-sons cross-country trek. The two had been making uncomfortable small talk until the son asked, Dad, will you tell me what you did in the war? The father's answer is the amazing first-hand account of the USS Fuller, The Lady Gangster, an attack transport ship and its courageous crew of Chicago Boys who transformed from wide-eyed new recruits to weathered Old Salts braving enemy attacks while delivering troops and supplies during many of the toughest battles waged in the South Pacific during World War II.
