

Surviving The Dream: The Diary of a Dubai Expat

From the chill of the North of England to the scorching Arabian Desert, *Surviving The Dream: The Diary of a Dubai Expat* is a unique and entertaining short story of a novice expat from Yorkshire who relocated to the Middle East's most fashionable and glittery metropolis. Leaving behind her woolly hats and hot water bottle, she ventured forth into a world of designer-mania, diamonds and delusions. Involving more culture shocks than sand storms, this is a tale of expat life in one of the world's most incredible cities.
