

## Donor Girl: A Story of Living Kidney Donation

In 2006 I volunteered to save a life. My brother in law (sisters husband) went into kidney failure and was told he needed a kidney transplant within the year. I immediately volunteered to get tested, only to be shocked that I was a match. For the next 9 months, we went through a series of ups and downs and tests until on July 11, 2007, I donated my kidney to David. This is my story of the emotions and feelings that went along with the medical tests. This is my story of saving a life.
