

STONE COLD GUILTY - The People v. Scott Lee Peterson

What Stone Cold Guilty can offer that will set it apart from other books on the case includes - intimate, accessible, real-time reporting and analysis that did not appear in mainstream media. - Compelling evidence that Laci was already dead and had been taken to the Bay before 10:08 am December 24, 2002 - That Peterson made two trips to the San Francisco Bay and why the prosecutors did not present that theory at trial. - Peterson self-sabotaged the perfect crime because of his personality. - Fruit of the investigation that was not introduced (or not admitted) at trial, including results of the various dog tracking, sonar findings, and specific deep-water research on Petersons computer. - An exclusive series chronicling the underwater investigation, with photographs, charts and expert narrative provided by Gene Ralston, head of Ralston & Associates, a side-scan sonar expert involved in the search for Laci Peterson.
