

This book is to reveal details from my late husband, regarding the ‘possible’, cover up; of a long standing unsolved, South Yorkshire murder in 1964, of Anne Elizabeth Dunwell. The readers are asked to regard all FACTUAL evidence; and make up their own minds, if they believe any of the murder suspects are guilty... There are 3 men who may have been involved in the actual planning of the murder – on the other hand, there may be 2 - and finally perhaps just the main suspect... The main suspect may be deceased and never brought to trial by jury; or tested for his DNA. Having said that; his blood children hold the power to give their own DNA, if only to eliminate their Father from the case... I will not go to my grave by withholding factual information, given to me over a number of years by my late husband. As he was dying; he begged me to carry out his wishes, and revealed the final instructions; with evidence to me... South Yorkshire police are aware of this evidence. Names have been changed where I feel it necessary to protect both myself and innocent people. The IPCC have now stepped in to help with this case. There are regular updates on my face book page which is called ANONYMOUS JUSTICE COMMUNITY... The real name of the murder suspect is now named on that page.
