

Blood Trail of a Serial Killer

Blood Trail of a Serial Killer Detective Tom Richards just retired after serving twenty-five years in the New Orleans, Louisiana Police Department. For years, he had to stand by, and watch some of the most hardened criminals skate through the justice system, with only a slap on the wrist. In some cases, the criminal was back on the street before the paperwork could even be filed. There will be no more paperwork or court proceedings. When Tom takes on a case, he makes sure that the punishment fits the crime. Period There is a serial killer on the loose in New Orleans. Mutilated bodies of young boys are turning up on Catholic premises around the city. This psychopath is cunning and devious, but Tom has picked up his trail. Tom Richards is for the people and by the people. Sometimes an honest law abiding citizen just reaches that point where enough is enough, and now it's time that true justice is served.
