

.NET 4 for Enterprise Architects and Developers (Infosys Press)

Presenting cutting-edge insights from industry practitioners, .NET 4 for Enterprise Architects and Developers supplies in-depth coverage of the various server-side features of Microsoft .NET Framework 4 that can be leveraged in Enterprise Application development. It provides a fundamental understanding of the technical aspects of implementation and details a step-by-step approach for real-life implementation using specific .NET 4 features. The book is useful to architects, developers, students, and technology enthusiasts who wish to learn more about .NET 4. It illustrates key scenarios and specific features with code snippets to help you understand the technical aspects of implementation. Praise for the book: ... presents broad and deep coverage of key technologies released as part of .NET Framework 4. Kris Gopalakrishnan, Executive Co-Chairman, Chairperson, Executive Council of Infosys Ltd...the authors introduce us to new features of .NET, provide deep insights into it, and explain how it can be applied in enterprise application development scenarios. highly recommended... Naveen Kumar, Principal Architect, Microsoft Technology Center, Infosys Ltd. excellent in-depth coverage of .NET Framework 4 ... Subu Goparaju, Senior Vice President, Head of Infosys Labs, Infosys Ltd.
