# Teaching Basic General English through Online Distance Methodology: Teaching English as a foreign language through Moodle, websites and virtual learning objects. CALL

Advances in technology have been essential to achieve better learning of different cognitive sciences, for this reason, the Internet has become a tool to achieve a meaningful learning of a target language through an online methodology using CALL, (computer assisted language learning) as a learning mediation in the academic community worldwide. This is a Methodology that is in process of exploration, but in the future it will be a great tool to help diverse population cannot access classes within a traditional classroom. In this way, many universities and institutions in the world can implement this type of virtual education as its pedagogic component and academic.

This publication will be useful to researchers that want to learn about the use of new technologies as a teaching tool in learning of a target language.
