

## Loaded Again

The author of the wildly inappropriate *Angry Rants From The Bottle* is at it again, and this time nothing is sacred. This grueling analysis of life and the world at large tackles a myriad of crucial issues which include an in-depth examination of fake breasts and their overall contribution to society, things to ask God when you meet Him, and whether or not beer goggles constitute fashionable eyewear. This hard-hitting compilation holds no punches, and takes no prisoners. So brace yourself for another wild ride with the barhopping philosopher, because this time he's locked, cocked, and loaded again.
