

## Predators I Have Known

An adrenaline-fueled travel memoir of life in the wild among the planets most ferocious and fascinating predators. Over the last forty years, bestselling science-fiction writer Alan Dean Foster has journeyed around the globe to encounter nature's most fearsome creatures. His travels have taken him into the heart of the Amazon rain forest on the trail of deadly tangarana ants, on an elephant ride across the sweeping green plains of central India in search of the elusive Bengal tiger, and into the waters of the Australian coast to come face-to-face with great white sharks. Packed with pulse-pounding adventure and spiked with rapier wit, *Predators I Have Known* is a thrilling look at life and death in the wild. The New York Times bestselling author of more than one hundred books, Alan Dean Foster is one of the most prominent writers of modern science fiction. Born in New York City in 1946, he studied filmmaking at UCLA, but first found success in 1968 when a horror magazine published one of his short stories. In 1972 he wrote his first novel, *The Tar-Aiym Krang*, the first in his Pip and Flinx series featuring the Humanx Commonwealth, a universe he has explored in more than twenty-five books. He also created the Spellsinger series, numerous film novelizations, and the story for *Star Trek: The Motion Picture*. An avid world traveler, he lives with his family in Prescott, Arizona.
