

Sit & Solve Straight-Ahead Mazes (Sit & Solve Series)

Remember the old wooden labyrinth game with the metal ball and lots of holes to fall through? Well, here comes a smaller paper version that tests your brain more than your hand-eye coordination. Solve the maze from start to finish but without going around corners as you normally would. You're only allowed to make a turn after you hit a wall, and that makes things much more complicated. Maze and logic puzzle lovers will both find pleasure in this latest addition to the bestselling Sit & Solve family. And, because there are no language barriers, anyone can play!
