

The Evolution of Alienation: Trauma, Promise, and the Millennium

The Evolution of Alienation: Trauma, Promise and the Millennium presents a collection of essays that examine the prevalence of alienation in the contemporary world. Although the authors share a critical approach to society, their views of alienation vary. While some feel that alienation is inescapable under the conditions of late modernity, others see that especially at this time there are opportunities to overcome alienation. Testing their approaches, the authors touch on highly diverse domains of life. The book is divided into four sections, each with a focus on how alienation is produced and, perhaps, overcome. Part I presents theoretical approaches to shifting views of alienation. Here the authors discuss how alienation is disclosed in social science, in technology, and in biological constructions of the human being. Part II deals with political consequences of alienation. The three chapters focus on how alienation can lead to fascist beliefs, how it functions in the development of authoritarian personalities, and how alienation is disclosed in teen-age violence, but also in the justice meted out to desperate teens, without compassion. Part III includes examinations of alienation in identity, culture, and religion. Here, researchers discuss how the alienating conditions of globalization create alienated identities that are carnivalized in shock music and in exploitative television shows. The last chapter of this section sees in these developments evidence of our inability or unwillingness as social scientists to deal with transcendental values. Part IV focuses on phenomena from everyday life, showing how alienation undermines the advantages of community, and the intimacies of dialogue. Although the very concern with alienation shows awareness of trauma, there are, throughout the book, hints of promise - in technology, in loving and creative domesticity, in activism and
