

In this book I am writing about all the illegal and wrong things that I did from the year 1986 that I was 16 years old forward. I talk about the time I spent in prison which was from 1989 until 2005 just for the reader to see the inside of how people in prison live and do. I also wrote about the time after prison that I got involved in Medicare scamming and it is an insight on how people were thinking at that time and how they were doing it. Everything I am writing in this book is to give the reader an insight of how everything was done and it's all true.
