

Behind The Iron Veil

This is a True Story. Its about the life of one seemingly ordinary woman born under a very suppressive and manipulative regime. Its about her awakening to the entrapping web of lies she was indoctrinated with all her life, and her amazing transformation as the truth becomes unfurled. This gentle woman was propelled by circumstances to participate in Polands Solidarity Resistance. She stood as a David against the Goliath of a totalitarian government that totally controlled the life of Poland, and the life of her family. Its a story of the bravery of one mother against incredible obstacles. Its a personal story of a woman named Amanda, who displayed incredible strength and determination to triumph in her extraordinary life. Its an Expose. This story unveils the actuality of living under a Socialistic/Communist system, not idealistic theory. This is a history that has been hidden and masked by intent, and by political correctness. Its been carefully hidden by an elitist mentality who seek to accomplish their agendas regardless of the enslavement of others. This expose uncovers the deceptive, meticulous, and ruthless methods created by obsessive and troubled personalities; it details how these techniques capture, enslave and continually abuse millions of unwilling people. It also exposes their most vulnerable weakness. This is a Historical Novel. It reveals to the Western mind what life can become when Big Government controls all aspects of life. Its the history of some of the darker imprints of humankinds footsteps. It breaks directly through the politically correct facades, the noble sounding images, and the carefully conceived constructs of indoctrination being force fed to the youth of today. It cries a dire warning, depicting the real consequences of allowing such a system to be fully implemented. Its a history lesson for any mother who loves her children and their freedom. Its a lesson not being taught in the schools.
