

John Wilkes Booth: Day by Day

By 1865, at the age of 26, Booth had much to lose: a loving family, hosts of friends, adoring women, professional success as one of Americas foremost actors, and the promise of yet more fame and fortune. Yet he formed a daring conspiracy to abduct Lincoln and barter him for Confederate prisoners of war. The Civil War ended before Booth could carry out his plan, so he assassinated the president, believing him to be a tyrant who had turned the once-proud Union into an engine of oppression that had devastated the South. This book gives a day-by-day account of Booths complex life--from his birth May 10, 1838, to his death April 26, 1865, and the aftermath--and offers a new understanding of the crime that shocked a nation.
