

Victims of Circumstance

This book is about how some of our teenagers and adults are being victimized by pressure of the system and other predators that live within our society. The web page on the Internet is the predators Homepage; the street is their playground, while at night they creep around. Its our children the predators seek to find. Our childrens futures are being destroyed, either by the phrase or turning the other cheek to a whole new level. Using parental guidance is the parents home base, so use it today, it is a must to save the children. These predators cause hardship upon the family. We do all that we can to hold still, not to seek revenge. All humans have choices; without courage and knowledge in making the right decision, will cause doubts, build fear, and could block the mind in most humans. It leads to pain, sorrow, hardship, frustration and more damage to destroy and weaken the family stronghold. Sometimes death causes upon innocence that hardens the shields which block the mind from what humans need to help control.
