

Workplace Woes

Workplace Woes: Screenplays is a humorous collection of screenplays involving the workplace. The author, John Leone, draws on many years of experience and presents a cast of less than stellar workers working for a less than stellar boss. The object of the company is to sell widgets. Unfortunately, this message constantly gets lost as the boss demands report after report and endless paperwork. Actually, isn't almost every workplace the same? The reader will find a lot of familiarity within these pages.
